ADDENDUM NO. 1
REQUEST FOR QUALIFICATIONS (RFQ) NO. 26-08
ENGINEERING SERVICES

ADDENDUM ISSUE DATE: September 2, 2026
PROPOSAL DUE DATE: September 4, 2026 at 2:00 PM CST

Purpose of Addendum. This Addendum provides clarifications and responses to questions received during the question period for Holmes County RFQ No. 26-08. This Addendum is incorporated into and made a part of the RFQ documents.

QUESTION 1

Can you please advise if all required forms, certificates, and licenses are excluded from the 50-page count limit?

Response: Yes. All required forms, certificates, and licenses are excluded from the 50-page proposal limit.

QUESTION 2

The proposal content requirements and evaluation criteria do not appear to directly correlate. To facilitate the County's review, should respondents organize their submissions according to the Proposal Content Requirements or according to the Evaluation Criteria? If the latter, may respondents reorganize and combine the requested information as appropriate to align with the Evaluation Criteria?

Response: The County Attorney has advised that responses may be organized either in accordance with the Evaluation Criteria outlined in the RFQ.

Respondents should keep in mind that the Holmes County Board of County Commissioners will be responsible for reviewing and scoring the proposals. Accordingly, organizing the submission in a manner that corresponds with the Evaluation Criteria may facilitate the Commissioners' review and scoring of the proposal.
